

Directions to the Plough and Harrow in Harpenden

Plough and Harrow
88 Southdown Road
Harpenden
AL5 1PR

From Luton

Turn left at the roundabout after you've passed the town centre on the A1081, into Southdown Road. The Plough and Harrow is on the left just after the railway bridge.

From St Albans

From the A1081, turn right at the roundabout before you get to the town centre (Walkers Road, signposted to Wheathampstead). Go under the railway bridge and turn left at the mini roundabout. The Plough and Harrow is immediately on your right.

From the A1

From Hatfield, Welwyn, Stevenage, Letchworth etc, make your way to Wheathampstead. Go into the village and turn off the High Street by the church where it is signposted to Harpenden (into Church Street which then becomes Brewhouse Hill). Follow this all the way into Harpenden, bearing left at the first roundabout into Piggotshill Lane. At the next roundabout, by the shops, turn right into Southdown Road. Just a few yards further on is another roundabout with the Plough and Harrow immediately beyond on the right.

Parking

If the pub car park is full and there are no spaces in the road opposite, go to the adjacent mini roundabout to the east of the pub and turn left. Here there is a large well lit car park behind the Co-op supermarket.
